

QUALITY POLICY STATEMENT.

EvadX Ltd., are dedicated to the principle of never ending improvements in product quality, reliability and customer service.

Our principal aim is to always supply to our customers, high quality products and customer service that conform exactly to stated or agreed specifications, order requirements and any other underpinning relevant statutory or regulatory requirements.

1. The establishment of an integrated QUENSH management system is therefore the foundation to establish a company culture built upon continuous quality improvement.

2.

The integrated QUENSH management system is based on the requirements of BS EN ISO 9001, BS OHSAS 45001, BS EN ISO 14001, BS EN ISO 3834 & BS EN 1090 and the company is fully committed to fulfilling these requirements. The system has been developed to enable full integration of in-house, industry approved and client specific requirements.

The aims of the QUENSH management system are to prevent quality, safety and environmental defects or potential quality, safety and environmental defects at the earliest stage possible. This in turn improves the overall efficiency of the organisation and assists in the achievement of the annually formulated quality, environmental and safety objectives.

Our QUENSH management system provides a "risk based" approach to thinking, managing opportunities and mitigation of risks, including the elimination of product / service quality defects or other potential quality issues at the earliest stage possible. This in turn improves the overall efficiency of the organisation and supports with the achievement of the established quality objectives and customer satisfaction.

This policy will be communicated to all staff and any identified external interested parties and stakeholders eg. sub-contractors that may be working on our behalf, and will be available to the public via Evadx web site: www.evadx.com.

Top management will review the integrity, effectiveness and suitability of this policy, formulate QUENSH objectives at least on an annual basis during management reviews and will ensure the routine monitoring, measurement continual improvement of the QUENSH management system and performance.
